

## Environment Variables Deployment Website

The screenshot shows the Vercel Settings page for Environment Variables. The left sidebar contains navigation links: General, Domains, Environments, Environment Variables, Git, Integrations, Deployment Protection, Functions, Data Cache, Cron Jobs, Log Drains, Security, and Advanced. The main content area is titled "Environment Variables" and includes a link to "Learn more about Domains". Below this, there is a section for "Environment-specific variables override Team Environment Variables". A search bar and a "Preview" button are present. A table lists four environment variables: CLERK\_SECRET\_KEY, NEXT\_PUBLIC\_CLERK\_PUBLISHABLE\_KEY, NEXT\_PUBLIC\_SANITY\_PROJECT\_ID, and NEXT\_PUBLIC\_SANITY\_DATASET. Each variable is associated with "All Environments" and has a status of "Added 7m ago" or "Added Jan 2". A "Shared Environment Variables" section at the bottom states "No Shared Environment Variables are linked to this app."

Shared Environment Variables

No Shared Environment Variables are linked to this app.

## After Deployment, the Website view:

The screenshot shows the Vercel Production Deployment page for the MORENT website. The top bar includes "Build Logs", "Runtime Logs", and "Instant Rollback" buttons. The main content area is divided into two sections: a preview of the website and deployment details. The website preview shows a car rental interface with a search bar, login button, and two promotional cards. The deployment details section shows the deployment name "calculator-o2sexaq18-taha-hussains-projects-6c717b72.vercel.app", the domain "rent-e-commerce.vercel.app", and the status "Ready" with a "Created" timestamp of "7m ago by Taha258". The source is listed as "main" with a commit hash "b4ee5da clerk".
